

<b>SUPPLEMENTAL REISSUE APPLICATION DECLARATION BY THE ASSIGNEE</b>		Docket Number: <b>P56169RE</b>
I hereby declare that: My residence and post office address and citizenship are stated below next to my name. I am authorized to act on behalf of the following assignee: <u>SAMSUNG ELECTRONICS CO., LTD.</u> and the title of my position with said assignee is <u>as stated beneath my signature.</u> The entire title to the patent identified below is vested in said assignee.		
Name of Patentee(s): <b>KI-BONG YUN</b>		
Patent Number: <b>5,808,982</b>	Date of Patent Issued: <b>15 September 1998</b>	
Title of Invention: <b>DISK CALIBRATION AND SEARCH METHOD IN A CD-ROM DRIVE SYSTEM</b>		
I believe named inventor(s) to be the original, first and sole/joint inventor(s) of the subject matter which is described and claimed in said patent, for which a reissue patent is sought on the invention entitled <u>DISK CALIBRATION AND SEARCH METHOD IN A CD-ROM DRIVE SYSTEM.</u>		
the specification of which <input type="checkbox"/> is attached hereto. <input checked="" type="checkbox"/> was filed on <u>15 September 2000</u> as reissue application number <u>09/665,183</u> and was amended on <u>22 July 2004</u> . (If applicable)		
<input checked="" type="checkbox"/> I hereby claim foreign priority benefits under Title 35, U.S. Code §119(a)-(d) or §365(b) of any foreign application(s) for patent or inventor's certificate, or §365(a) of any PCT International application which designated at least one country other than the United States, or §119(c) of any United States provisional application(s), listed below and have also identified below any foreign applications for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:		
<u>1995-11815</u> (Application Number)	<u>Republic of Korea</u> (Country)	<u>13 May 1995</u> (Day/Month/Year filed)
I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment specifically referred to in the Declaration(s). I acknowledge the duty to disclose all information known to me which is material to patentability as defined in 37 CFR 1.56. I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxed that apply.)		
<input checked="" type="checkbox"/> by reason of a defective specification or drawings. <input checked="" type="checkbox"/> by reason of the patentee claiming more than he had the right to claim in the patent. <input checked="" type="checkbox"/> by reason of the patentee claiming less than he had the right to claim in the patent. <input checked="" type="checkbox"/> by reason of other errors.		
At least one error upon which reissue is based is described as follows: The allowed process claims 1 and 6 are too narrow, and include, by way of an example of the scope of these process claims, the "positioning of a data reading pickup across to a first position on a track" in claim 1, and "jumping said pickup to a first position on said disk" in claim 6. The Applicant and the Assignee desire to secure broader coverage with, by way of example, newly presented independent claim 18. Claims 1 through 17 of the original patent include no apparatus claims. Dependent process claim 9 is grammatically incorrect due to the omission of the article "and" in line 63.
